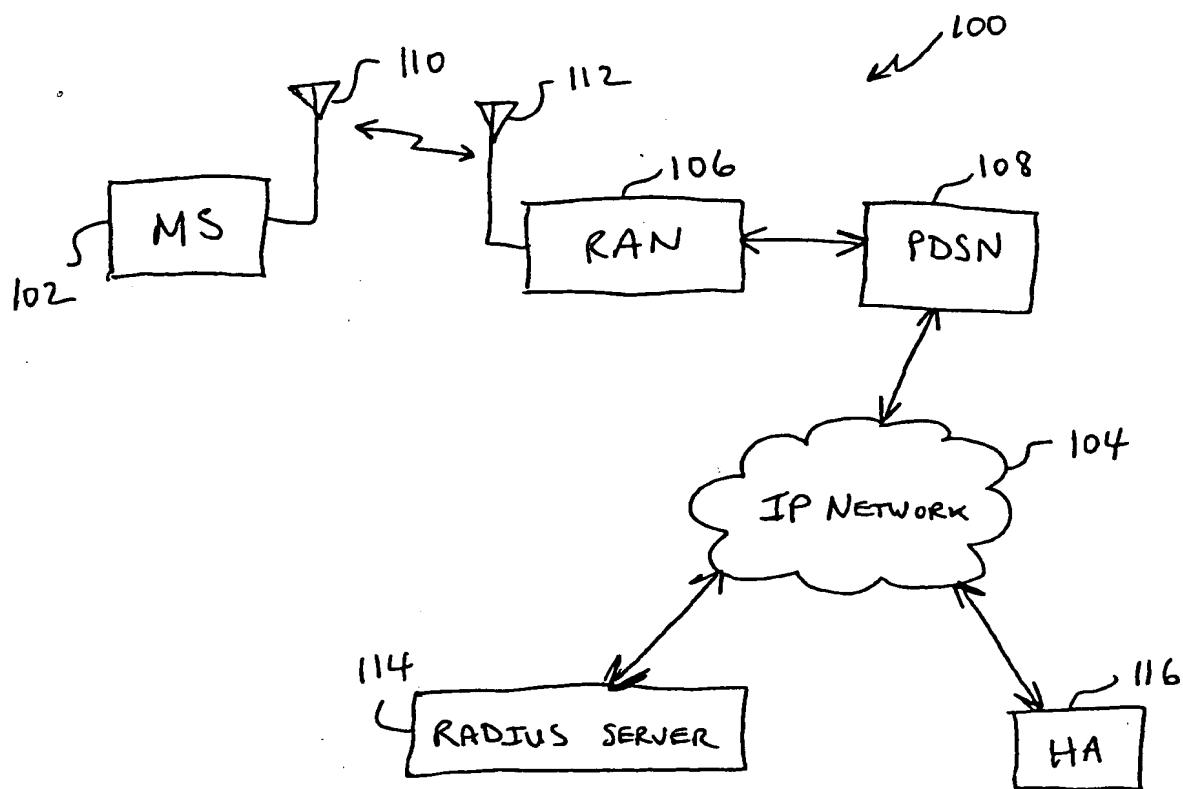

FIG. 1

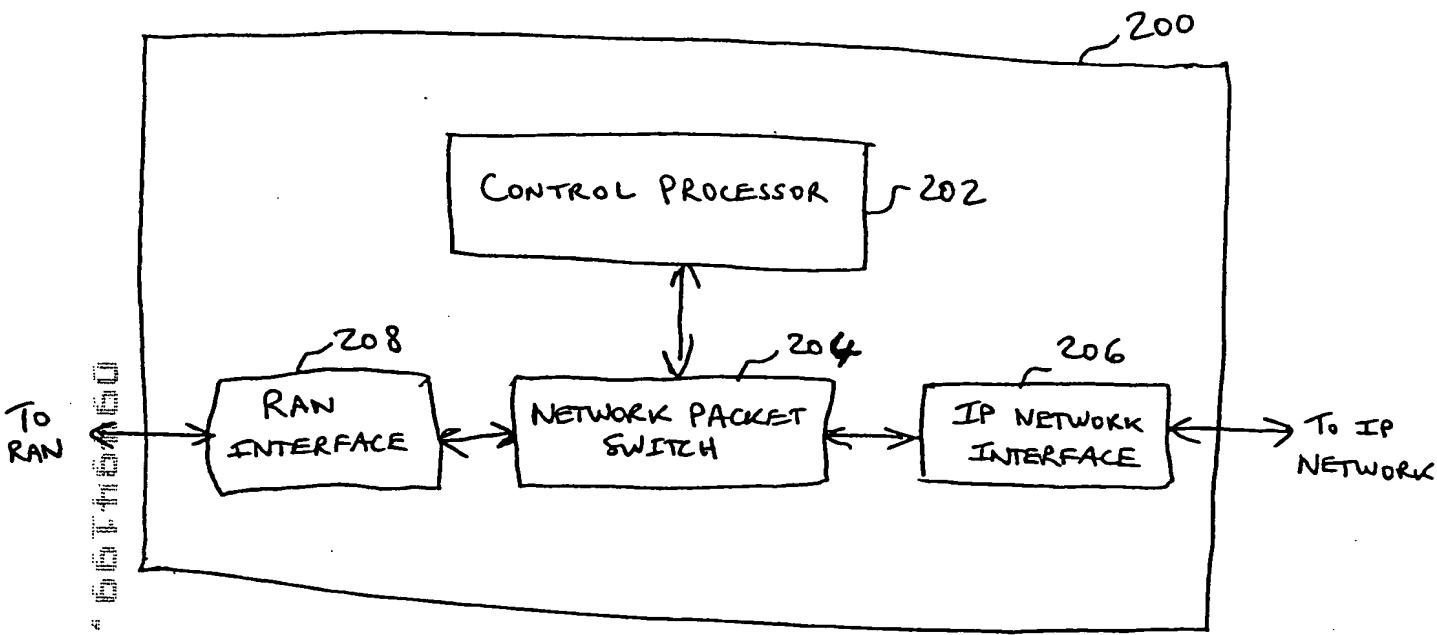

FIG. 2

Figure 3 illustrates a network architecture. A PDSN (314) is connected to two PCF/BS entities: PCF/BS_1 (306) and PCF/BS_2 (316). PCF/BS_1 is further connected to an MS (300). A table (312) shows the mapping of R-P ID, sr_id, MS_ID, and IP address. A table (314) shows the mapping of R-P ID, sr_id, MS_ID, and IP address.

R-P ID	sr_id	MS_ID	IP address
12	1	abcd	x.y.z.t
72	2	abcd	x.y.z.t

R-P ID	sr_id	MS_ID	IP address
12	1	abcd	x.y.z.t
72	2	abcd	x.y.z.t
